NUTRIEN PROVIDES \$250,000 LEAD GIFT FOR THE FOOD BANKS OF SASKATCHEWAN'S HOME FOR THE HOLIDAYS CAMPAIGN

November 23, 2020

This holiday season, Nutrien is leading off the Food Banks of Saskatchewan's holiday campaign with a cash donation of \$250,000. The campaign, titled 'Home for the Holidays', starts today and runs through December 31, 2020.

Donations received during the campaign will be distributed to 36 food banks across the province and donors have the ability to designate their donation directly to one of the registered food banks.

Laurie O'Connor, Executive Director of Food Banks of Saskatchewan, says "The *Home for the Holidays* campaign recognizes that this season will look different for most of us this year and encourages people to make a donation in lieu of one of the 'regular' holiday activities you may have to miss. The amount you might normally spend on an evening out enjoying a seasonal concert with friends, could provide a family with a complete hamper for the holidays."

Mark Thompson, Nutrien Executive Vice President, Chief Corporate Development & Strategy Officer, says "At Nutrien we recognize the importance of ensuring food security both locally and globally, especially given the challenges that COVID-19 has posed in our communities. We're proud to partner with the Food Banks of Saskatchewan to ensure that every family has food on the table this holiday season. As lead donor for the Home for the Holidays campaign, we invite everyone in Saskatchewan who can, to join us in giving generously to their local food bank once again this year."

Saskatchewan's food banks have responded to the changing needs of folks in their communities during the pandemic and will continue to support those who need their services.

Nutrien has donated over \$7.5M since 2010 to the Food Banks of Saskatchewan including a \$100,000 gift earlier this year towards the Crisis Response Fund.
